

Parent Academy Night

November 18 - 19, 2015

Homework Without Tears

Homework Space - Location, Sensory, Energy, Breaks (20/20/20), Distractions, Proper seating

Different Ways to Accommodate Your Student's Unique Needs

Skills + Practice = Success

- Always consult with your child's Professor
- Focus on Standard and Learning Objective
- Remember Multiple Intelligences
- Number of problems and/or answers
- Selecting versus Open
- Prompts/Visual Organizer
- Format/Presentation
- Breaking down steps (1-5 or 5-1)

Plan, Monitor, Encourage

Develop a homework plan- Consider habits, preferences, sensory needs, or distractions, location of study area

Monitor your child's level of frustration- Monitor time needed to complete assignments, level of support in aiding of answers

Encourage student accountability - Involve student in the homework process from start to finish, checklist: agenda/planner, schedule projects into manageable chunks

Visible Schedule/Calendar- This aids students on projects, study time and homework due dates, while teaching school responsibility
